CENTRAL COLORADO WATER CONSERVANCY DISTRICT

BUDGET MESSAGE 2024

BUDGET OVERVIEW

The budget for the year 2024 includes major funding for water development (storage/recharge/water rights) within the District, maintenance of existing facilities, and operations.

Central has been active in the areas of water quality, education, and public information this past year. These projects allow the District to provide valuable water quality information and water storage data to our constituents. Central continues to host the Children's Water Festival and has had nearly 30,000 students attend the event since 1991.

GENERAL FUND SUMMARY

The focus of the 2024 budget is maintenance of existing structures, water portfolio acquisition, expanding storage development capacity, and implement new recharge sites/ponds. An additional Operations and Maintenance mill levy was approved by voters in November 2014, and the funding will continue to be collected in 2024.

GENERAL FUND REVENUES

Central has budgeted \$5,387,593 in General Fund revenues for 2024, along with a total fund balance of \$8,779,540 that will be carried over from 2023. Weld County will provide 81% of property tax revenues while Adams and Morgan Counties will provide 18% and 1% respectively.

GENERAL FUND EXPENDITURES

Total budgeted operating expenses for the District are \$13,591,290. The detail of expenses is presented below.

Personnel

A total of \$947,000 has been allotted for salaries and health insurance benefits for full-time District staff. This includes the Executive Director, District Engineer, Accounting Manager, Accountant, Water Resource Analyst, Contracts Manager, SCADA/DATA Coordinator, Meter Program Administrator, Water Quality Coordinator, Ditch Superintendent, Office Manager, Administrative Assistant, six Field Operations Assistants, and a possible new staff position in 2024.

Capital Expenditures

The 2024 General Fund budget expenditures are \$13,591,290. The major expenses include \$587,400 dedicated to Chatfield Reservoir, \$105,000 for water quality, \$414,500 for field structures, \$6,125,375 for gravel pit construction and operations, and \$1,896,750 in administrative operations.

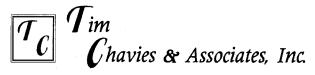

Public Information and Education

A total of \$100,000 has been budgeted for public information and education programs in 2024, and \$45,000 for the Children's Water Festivals.

BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Therefore, property taxes are recorded as revenue when received even though the taxes became a lien on property as of January 1 of each year. Other revenues are recorded when received in cash because they are generally not measurable until actually received. Interest income is accrued, when its receipt occurs soon enough after the end of the accounting period, so as to be both measurable and available. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

To the Board of Directors Central Colorado Water Conservancy District Greeley, Colorado

We have assisted the Executive Director of Central Colorado Water Conservancy District in the preparation of the annual budget for the year ending December 31, 2024. The budget was prepared in accordance with the Local Government Budget Law of the State of Colorado.

The 2024 budget has been prepared in accordance with accounting principles regularly followed by the District and is predicated upon certain factual data available from accounting records and documents of the District and upon estimates and assumptions made, or projected by, the Executive Director as summarized in the budget, all assembled in the 2024 budget in accordance with procedures with which we concur.

Inasmuch as the budget referred to above is an estimate of future revenues and expenditures, we cannot and do not express an opinion on the financial information included in or used in the preparation of this report.
